VFIC has created this Virginia Private College Network as part of our commitment to advancing the distinctive values and strengths of our fifteen member colleges and serving the workforce needs of our corporate partners.

CAREER15
is on:

**GREAT COMPANIES
WILL FIND
YOU HERE.**

**A big advantage you have: a small school.
A unique advantage you have: CAREER15.**

You made a great college choice. Smaller, private, liberal arts oriented, Virginia based, well respected—can't find a better kind of college than that.

But what next? If you're looking for an internship or a job with career possibilities, how do you get noticed by the bigger corporations? Social networking websites won't get the job done. Mailing hundreds of resumés may just waste paper. And there's a chance the top corporate recruiters have had to bypass or pay less attention to your college to focus on the big universities with larger student populations.

The great news is that your school is a member of the Virginia Foundation for Independent Colleges. Together the 15 colleges of the VFIC have made expanding your career opportunities a top priority. Meet **CAREER15**—your next great find.

CAREER15 puts you in the spotlight for opportunities with America's top employers.

Registering with **CAREER15** could be the most important networking you do. Why? Many top employers are looking at CAREER15 so they won't overlook great candidates at Virginia's best private colleges. They can find you here easily.

A gateway website at www.career15.com is at the center of the network. You'll file your resumé online where you will be able to apply for featured jobs. You can learn about the companies and discover specific opportunities they have posted. Through this password-controlled website, you and HR recruiters can set up interviews and decide next steps.

In addition to online networking, **CAREER15** sponsors career connection days, live blogs, and job fairs in conjunction with VFIC member colleges and partner corporations. Other features include: articles, tips and tricks, company videos, company materials, event calendar, live blogs, and social networking. You definitely want to put yourself in this unique spotlight.

A "who's who" of companies with real career opportunities.

Who are the potential employers you will find through **CAREER15**? They are major corporations that recognize the strength of an education like yours and want better access to students at your college. Most are Fortune 1000-level companies doing business nationally and globally. These are businesses that attract the attention of students and graduates across the nation. **CAREER15** gives you special access to the internship and job opportunities participating companies offer.

CAREER15 is not a giant international job network. It's focused on a limited group of colleges and a special group of students. Finding a position you want can be easier here. For more information, go to www.career15.com and follow directions. A password will be e-mailed to you. Or go to your college's career services office—contact name is listed on the website. You can also e-mail questions to Career15@vfic.org.
